Forecast for Tuesday 13 Sep 2022

Weather: A fine morning on Tuesday and any mist and fog patches in valleys soon lifting and clearing to give long spells of sunshine. Some cloud might develop by the afternoon with sunshine perhaps turning more hazy, but probably remaining fine to end the day.

Chance of cloud-free hill tops above 800m: 90% or more once any early valley mist and fog has dispersed.

Low cloud and visibility: Some limited views at first at low levels below 300m, with isolated mist and fog patches. This soon melting away, however, with very good views expected throughout the day and distant hills clearly visible in very good or excellent visibilities.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Summits will feel quite cold in the northerly or northwesterly breeze at first and again after dusk.

Forecast for Wednesday 14 Sep 2022

Weather: Some mist and fog patches are likely in valleys at first on Wednesday morning. A largely sunny but fine day follows with just the outside chance of a passing light shower. Feeling cooler than recently, with a fresh northerly or northwesterly breeze.

Maximum wind: NW 15-20 mph.

Chance of cloud-free hill tops above 800m: 90% or more once any early valley mist and fog has dispersed.

Low cloud and visibility: Limited views are possible at first at low levels below 250m, with isolated mist and fog patches. This soon melting away, however, with very good views expected throughout the day and distant hills clearly visible in very good or excellent visibilities.

Temperature: **Valleys:** Plus 8 degrees Celsius rising to Plus 17 degrees Celsius.
At 800m: Plus 5 degrees Celsius rising to Plus 12 degrees Celsius.
Freezing level: Well above summits.
